

TUBA MARIYAM K S

Data Analyst — Machine Learning Enthusiast — Power BI Developer

☎ +91-8838176741 ✉ khateebtubamariyam@gmail.com [linkedin.com/in/tuba-mariyam-khateeb-17aa13316](https://www.linkedin.com/in/tuba-mariyam-khateeb-17aa13316) github.com/khateebtuba04 [Portfolio](#)

Summary

Data Analyst with hands-on experience in Python, SQL, and Power BI, with a strong foundation in data analysis, visualization, and machine learning fundamentals. Experienced in developing end-to-end projects, Completed multiple internships in data science and machine learning, gaining practical exposure to real-world data processing and analytical workflows. Additionally proficient in UI/UX design, enabling the creation of intuitive, user-centered dashboards and applications.

Skills

Programming & Querying: Python , SQL

Data Analysis & Visualization: Power BI, Excel, Data Analysis, EDA, Data Visualization, Dashboard Development

Machine Learning & AI: Machine Learning, Deep Learning, Predictive Analysis, Forecasting, Generative AI

UI/UX & Development: Figma, UX Research, User-Centered Design, Front-End Basics

Core Concepts: Data Structures & Algorithms, Data Mining, Artificial Intelligence, Business Analytics

Experience

Data Science Intern

Nov 2025 – Dec 2025

Maskan Technologies

Tools Used: Python, Full Stack, Data Analytics

- Developed a full-stack analytics web application to manage company data, including forecasting, inventory, logistics, and dashboard visualization.
- Implemented data processing and forecasting workflows using Python, enabling structured data handling and business insight generation.
- Designed interactive dashboards to visualize key metrics, improving data accessibility and decision-making efficiency.
- Collaborated in a team-based environment to deliver an end-to-end solution, integrating secure authentication and structured data flow.

Machine Learning Intern

2025

Prodigy Infotech

Tools Used: Python, Machine Learning

- Developed 5 machine learning models including house price prediction, clustering (K-Means), and image classification using SVM.
- Applied data preprocessing, feature engineering, and model evaluation techniques across multiple datasets.
- Built projects such as hand gesture recognition and food calorie estimation, demonstrating practical ML applications.
- Recognized with a Letter of Recommendation and Certificate of Completion for consistent performance.

Data Science Intern

2025

Oasis Infobyte

Tools Used: Python, Machine Learning

- Completed 5 real-world projects including Iris classification, unemployment analysis, sales prediction, and spam detection.
- Performed data cleaning, exploratory data analysis, and visualization to derive meaningful insights from datasets.
- Implemented machine learning techniques to build predictive models and improve analytical accuracy.
- Awarded Certificate of Completion and Appreciation for project performance.

Projects

Customer Behavior Analytics | Python, SQL, Power BI

2025

- Performed end-to-end analysis by cleaning and exploring datasets using Python (Pandas, Matplotlib, Seaborn) to ensure data reliability.
- Executed SQL queries (PostgreSQL) to analyze customer spending, discounts, subscriptions, and product performance.
- Developed an interactive Power BI dashboard with KPIs and filters to visualize trends and support business decision-making.
- Delivered actionable insights on customer behavior patterns, improving understanding of purchasing trends.

E-Commerce Sales Data Analysis <i>Python</i>	2024
– Analyzed large-scale e-commerce datasets using Python to identify sales trends, product performance, and revenue patterns. – Performed data cleaning and preprocessing to improve data quality and analytical accuracy. – Created visualizations using Matplotlib and Seaborn to highlight key business insights. – Provided insights into high-performing products and seasonal trends for strategic decision-making.	

Smoking Health Risk Analysis Dashboard <i>Power BI</i>	2025
– Designed an interactive Power BI dashboard to analyze health risks associated with smoking using real-world datasets. – Built dynamic visualizations including charts, KPIs, and filters to enhance data storytelling. – Enabled clear identification of risk patterns and behavioral trends through intuitive dashboard design.	

Customer Churn Prediction <i>Machine Learning, Python</i>	2024
– Built a machine learning model to predict customer churn based on behavioral and demographic data. – Applied data preprocessing, feature engineering, and model evaluation techniques to improve prediction accuracy. – Identified key factors influencing churn to support retention strategies.	

Forecasting & Analytics Web Application <i>Python, Full Stack</i>	2025
– Developed a full-stack web application to upload company data, generate forecasts, and manage inventory and logistics. – Integrated interactive dashboards for real-time data visualization and business insights. – Implemented structured workflows and secure authentication for efficient data handling.	

Awards & Certifications

- **Proficiency Prize Winner (2025):** Secured 94.6% and awarded First Rank for outstanding academic performance.
- **Career Essentials in Generative AI – Microsoft & LinkedIn:** Gained foundational knowledge in generative AI tools, applications, and ethical usage in real-world scenarios.
- **Data Analytics Job Simulation – Deloitte (Forage):** Completed hands-on tasks involving data analysis, business insights, and dashboard-based decision-making.
- **Data Visualization – Tata Group (Forage):** Developed skills in transforming complex datasets into actionable business insights using visualization techniques.
- **Cybersecurity Job Simulation – Mastercard (Forage):** Gained practical exposure to cybersecurity concepts and real-world problem-solving scenarios.
- **Python for Data Science – Great Learning:** Built strong foundation in Python programming, data analysis, and visualization techniques.
- **Database Management System – NPTEL:** Learned core concepts of SQL, database design, and data management systems.

Education

B.Sc. Data Science	2024 – Present
<i>Marudhar Kesari Jain College for Women, Vaniyambadi</i>	
UI/UX Design Course	Aug 2024 – Mar 2025
<i>MyCaptain</i>	
Higher Secondary (PCMB)	2022 – 2024
<i>T. Abdul Wahid Matriculation Higher Secondary School</i>	<i>Score: 92.8%</i>
